

Key Features

Compatible with FyreLine LHD systems

Zintec and stainless steel variants

Quickly and easily installed

Suitable for general indoor and outdoor use

Complies with BS 5839-1 Section 26.2 Part F

Overview

The FyreLine pipe bracket is designed to utilise existing pipework which may run through the protected area. Its design allows for the bracket to fit any size of pipe and should be fitted to the underside of the pipe and be secured in place using cable ties or strapping. Available in zintec and stainless steel.

Zintec mounting accessories are suitable for general indoor and outdoor use. Stainless steel mounting accessories are suitable for indoor and outdoor use and in environments where the clip may be exposed to harsh chemicals e.g. hydrocarbons or in a caustic environment. Silicone sleeves are included in each pack to insulate and protect the LHD cable from abrasion, excessive pressure and any heat transfer from a metal mounting bracket to the cable, which may affect the operation of the cable.

Tech Specs

Material	Zintec or Stainless Steel
Dimensions (W x H x D)	20mm x 60mm x 50mm
Weight	34g
