

Key Features

Compatible with FyreLine LHD systems

Stainless steel

Quickly and easily installed

Suitable for general indoor and outdoor use

Complies with BS 5839-1 Section 26.2 Part F

Overview

The V-Clip is useful when installing FyreLine linear heat detection cable on to cable tray installations. The V-Clip is designed to be quick and easy to install by fitting into the cable tray slots without the need of fixings. The FyreLine linear heat cable is then placed within the V channel and secured in place using a neoprene sleeve and cable tie.

Zintec mounting accessories are suitable for general indoor and outdoor use. Stainless steel mounting accessories are suitable for indoor and outdoor use and in environments where the clip may be exposed to harsh chemicals e.g. hydrocarbons or in a caustic environment. Silicone sleeves are included in each pack to insulate and protect the LHD cable from abrasion, excessive pressure and any heat transfer from a metal mounting bracket to the cable, which may affect the operation of the cable.

Tech Specs

Material	Stainless Steel
Dimensions (W x H x D)	260mm x 135mm x 20mm
Weight	24g
