

Key Features

IP66 weatherproof protection

High-output audible alert

Rugged, durable housing

Quick and easy installation

Full SenTRI system compatibility

Overview

The SenTRI IP66 Sounder is a compact yet powerful fire alarm sounder engineered for maximum performance with minimal power consumption. Its patented design delivers high-output sound while maintaining low current draw, making it both efficient and effective.

Programmable tones help avoid confusion with other system alarms, while multiple signal options support phased evacuation and tailored fire plans. With adjustable volume control, soft-start functionality and synchronised tones across the building, the SenTRI IP66 Sounder ensures clear, calm and coordinated evacuation in any environment.

Tech Specs

Approx max quantity per Loop (dependent on loop load)	Standard Tone: 200 Inc. Bell Sound: 160
Ingress Protection	IP66
Approx Weight	0.3 Kg
Operating Temperature	-10°C to +50°C
Sound Output at 1m	103 dB(A) ± 3dB(A) @1m
IR Control Operating Distance	3m
Standards	Certified to EN54 Part 3 (sounders only) and EN54 Part 17
Approvals	LPCB approved to EN54-3, and EN54-17
