

Key Features

Designed to house a single interface module

Surface mountable

Ingress protection rating of IP31

Made of two-tone plastic with a dark grey box and a light grey lid

LPCB-approved

Overview

Designed to integrate with SenTRI and Senator Advance fire alarm systems, the SEN-490 serves as a protective, surface-mounted enclosure for low-voltage interface modules.

This LPCB-approved plastic box is engineered for straightforward installation, providing numerous cable entry points.
