

Key Features

Connects 25mm female fittings to 27mm male fittings

Manufactured from durable ABS material

Lightweight and robust construction

Provides a secure and reliable pipe connection

Suitable for aspirating smoke detection pipe networks

Overview

The 25mm Female to Male 27mm ABS Adaptor is designed to provide a secure connection between aspirating smoke detection pipework components with differing diameters. It enables the transition from 25mm pipework to 27mm fittings, helping maintain a consistent and reliable pipe network within aspirating smoke detection systems.

Manufactured from durable ABS material, the adaptor offers good impact resistance and long-term reliability while remaining lightweight and easy to install. It is designed to create a precise fit between compatible pipe sections and fittings, helping simplify system installation and supporting efficient airflow throughout the aspirating smoke detection pipe network.

Tech Specs

Material	ABS
Colour	Red
Operating Temperature Range	-40°C to 70°C
Sizes	Male 27mm Pipe Female 25mm Inlet
Weight	0.01kg

Ordering Information

Part Number	Description
22-024	25mm Female to Male 27mm ABS Adaptor, Red
